

VB5 669 300

VBS 669 300

Macchina a braccio speciale, idonea per la cucitura di calzature, abbigliamento e articoli di piccola pelletteria quali borse, portafogli, valigette, ecc. Grazie alle ridotte dimensioni della placca a punta, al crochet grande e al triplice trasporto si presta a cuciture particolarmente difficili dove una normale macchina a braccio non riesce ad arrivare garantendo ottimi risultati in termini di uniformità e qualità della cucitura.

VBS 669 300

Special cylinder-arm machine, suitable for stitching shoes, apparel and items of small leather goods such as bags, wallets, cases. Thanks to the reduced dimensions of the pointed needle plate, to the large hook and to the triple feeding, it's particularly useful with difficult sewing operations, which cannot be performed through ordinary cylinder-arm machines, ensuring excellent results in terms of uniformity and stitch quality.

Massima velocità di cucitura 1000 rpm

Sewing maximum speed 1000 rpm
