VCA40 01

VCA40 01 T867

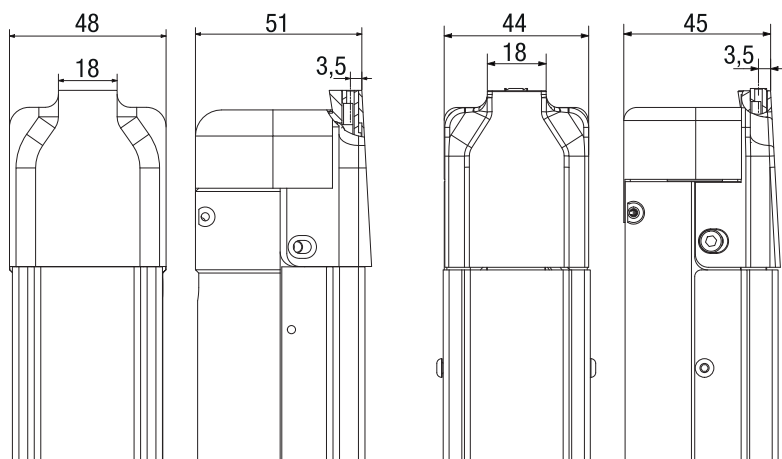

Macchina a colonna trasporto a griffa punta d'ago e piedini alternanti con altezza fino a 9 mm, punto annodato, completa di alzapiedino pneumatico. Idonea per cuciture di borse, borse da viaggio, valigette, portadocumenti, stivali e calzature in genere. Grazie alle ridotte dimensioni della colonna e della placca, si presta a cuciture di particolare difficoltà come bordi ed angoli, non realizzabili con altri tipi di macchine.

VCA40 01 T867

Post bed single needle machine, bottom feed, needle feed and alternating feet, with foot stroke adjustable up to 9mm, lockstitch, complete with pneumatic footlift. The machine is also available with upper roller. Fit for sewing bags, travelling bags, cases, briefcases, boots and shoes in general. Thanks to its small post bed and pointed needle plate, it is particularly suitable for difficult sewing operations such as those of small borders and corners, impossible to be stitched with other kinds of machines.

Altezza colonna 400 mm
Diametro colonna 45 mm
Velocità massima cucitura 1000 rpm

Post Height 400 mm
Post diameter 45 mm
Sewing maximum speed 1000 rpm

Crochet grande
Large hook

Crochet piccolo
Small hook
